

OVAL

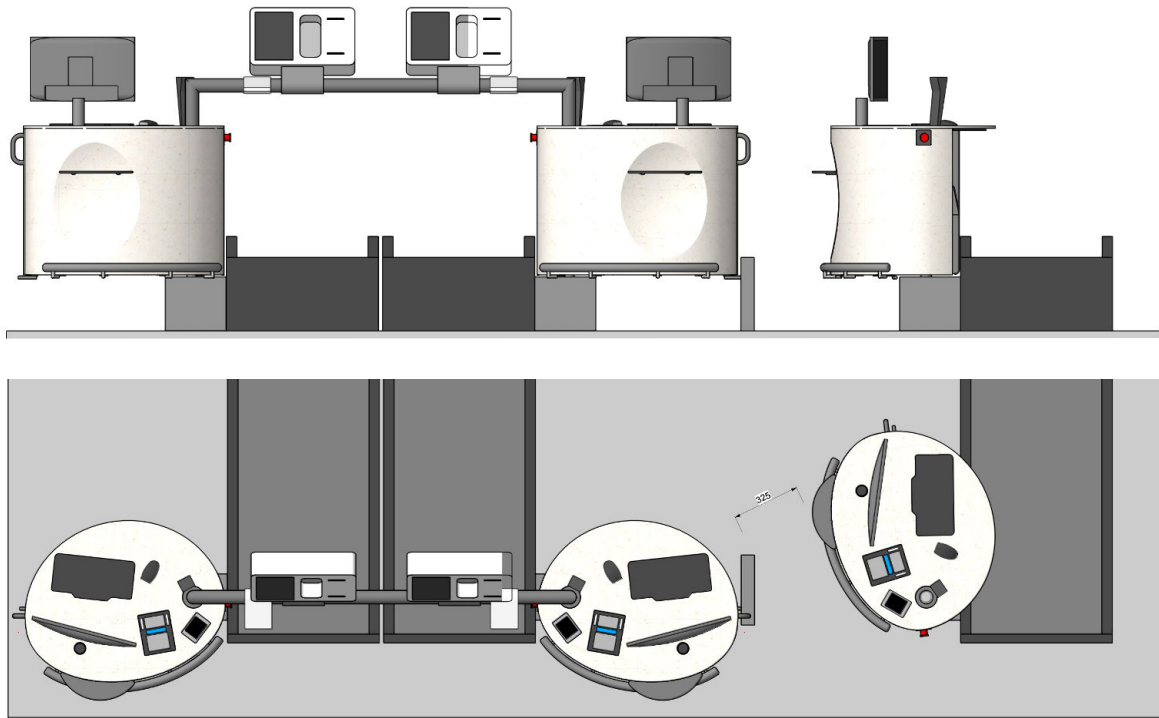

Modern & sustainable

INTOS has developed a counter for Amsterdam Airport Schiphol together with architect Studio Linse. The counters have been developed in close collaboration with all parties involved within the airport. The result is a modern looking, sustainable and ergonomic check-in counter.

Unique ergonomic design

The counter has a unique design, fully ergonomic. It has the special feature that it can be turned open, so that the ground crew can take a seat behind the counter in a simple & safe way. In this way, terminal space is reduced and no space between the counter is needed. Therefore, the number of counters on the same space can be increased which results in additional capacity.

Configuration

The check-in desk that INTOS has developed for Amsterdam Airport Schiphol consists of the following elements:

- ▶ Counter with built-in printer cabinet
- ▶ Canopy
- ▶ Skirts for conveyor
- ▶ Conveyor housing
- ▶ Doghouse

The chosen materials and design makes the OVAL a modern looking state-of-the-art check-in desk. The OVAL is durable and easy to maintain due to its ergonomic and space saving arrangement.

Why INTOS?

- | | |
|----------------------------------|--|
| ▶ 30 years of airport experience | ▶ Standard products and custom design |
| ▶ Own factory in the Netherlands | ▶ FSC & PEFC certified |
| ▶ Realizing projects world-wide | ▶ Offices in the Netherlands and Dubai |
| ▶ High quality level | |
